Supporting Associations CEDIA

The Custom Electronic Design & Installation Association (CEDIA) is an international trade association of companies that specialize in planning and installing electronic systems for the home. These systems include home networking, home automation and communication systems, media rooms, single or multi-room entertainment systems, and integrated whole-house subsystems providing lighting control, security, and HVAC systems. CEDIA provides top-ranked educational conferences, industry professional training, and certification focused on the installation and integration of residential electronic systems that consumers use to enhance their lifestyles. One of CEDIA's key missions and driving forces is public policy representation. CEDIA's public policy efforts are designed to support CEDIA members and ensure that their abilities to own and operate their businesses are not impeded.

InfoComm

InfoComm International® is the leading non-profit association serving the professional AV communications industry worldwide. Members of the industry are encouraged to adhere to Ten Standards of Excellence. Founded in 1939, the association offers industry expertise and market research serving press and others seeking information about the industry. Through activities that include tradeshow, education, certification, government relations, outreach and information services, InfoComm promotes the industry and enhances members' ability to conduct business successfully and competently. The association's activities are guided by an elected Board of Governors and led by Executive Director Randal A. Lemke, Ph.D.

MECIA

The Middle East Communication Industries Association (MECIA) is a not-for-profit Trade Association registered by the Dubai Technology and Media Free Zone Authority (TECOM). It is established to promote the global competitiveness of the broadcast and professional AV industry across the Middle East by: representing and promoting the interests of the industry; providing a networking platform for industry professionals; and advancing the knowledge and skills of broadcasters and AV professionals within the region.
